CELEBRATING 170 YEARS
OF CRAFTSMANSHIP

The story of Cross began in 1846 when Richard Cross, an English artisan, sailed to America and set out to revolutionise the craftsmanship of fine writing instruments – a move that would forever change the way the world puts pen to paper. 170 years later, Cross is still passionately dedicated to the pursuit of crafting beautiful and functional writing instruments. Join us in celebrating this milestone anniversary.
GIFTED FOR GENERATIONS

Cross writing instruments have a long heritage of being the classic choice for gift giving. A Cross pen is a creative personal gift that celebrates great pursuits and ushers in bright futures. It’s a vote of confidence – one that creates a long-lasting bond between people and enriches a cherished moment in a meaningful way. Every Cross pen is covered by a Lifetime Mechanical Guarantee.

This Collector’s Edition supports Fonderie 47’s efforts to help stop gun violence in war-torn regions of Africa by reducing the supply of assault rifles. It features AK47-inspired engravings, an embedded moniker disk of reformed AK47 steel, and the unique serial number of a gun destroyed to create it. Each purchase funds the destruction of one more AK47.

**TIP TECHNOLOGIES**

Cross luxury writing instruments are available in a wide variety of tips to suit many consumers’ needs. Depending on the item, the tip technologies available to our consumers are:

### FOUNTAIN PEN
- One of the oldest styles of writing instruments, fountain pen nibs actually adapt to your own personal grip and writing style over time, creating lines on the page that — like your signature — are all your own. Ink flows by capillary action from an ink reservoir to the fountain pen nib, which is the delicate split metal mechanism that contacts the paper. A favourite of the true connoisseur, fountain pens are each a work of art in their own right.

### BALLPOINT PEN
- The Ballpoint is the most popular tip technology and in many ways the simplest. A Ballpoint Pen uses a small rotating ball made of carbide to disperse ink as you write. This ball acts as a buffer between the material you’re writing on and the ink inside the pen. The ball rotates freely and rolls out the ink as it is continuously fed from the ink reservoir.
- Ballpoint Pens are not capped, but instead retract and store via a rotating mechanism in the barrel.
- Low maintenance and easily refillable, the Ballpoint Pen is the option for the everyday pen user.

### PENCIL
- Cross mechanised pencils are offered in all Century finishes. The size of the mechanical pencil’s line is 0.7 mm, which is determined by the width of the lead.
- For the traditionalist as well as professionals in drafting and drawing fields, Cross Pencils offer fine quality and a Lifetime Mechanical Guarantee.

### SELECTIP ROLLER BALL
- Our most versatile tip technology is proprietary to Cross, and is known as Selectip Roller Ball. A Selectip allows you to “select” the kind of refill you want to use in this writing instrument from the following options:
  - Gel Roller Ball (a mix of Ballpoint ease of use and the elegance of Fountain Pen ink flow)
  - Jumbo Ballpoint (Ballpoint technology with a bolder, fuller write-out)
  - Porous-Point (most commonly known as a Flair or Marker Point)
- The inks in a roller ball are generally aqueous based. This results in a smoother, fluid (or wet) lay-down of ink similar to a Fountain Pen.
  - Aqueous-based inks, due to their fine fluidity, also tend to dry out quicker, thus care must be taken to always retract the tip after use.

### GEL INK PEN
- The tip technology of gel ink has been rapidly gaining popularity over the past few years, and Cross now has several retractable gel ink writing instruments.
- Gel inks are generally aqueous based. This results in a smoother, fluid (or wet) lay-down of ink similar to a Fountain Pen.
- Aqueous-based inks, due to their fine fluidity, also tend to dry out quicker, thus care must be taken to always retract the tip after use.

### CROSS OFFERS NIBS IN TWO WIDTHS:
- Medium & Fine

### CROSS FOUNTAIN PEN Nibs Support Two Different Feed Systems:
- Cartridge, or a replaceable capsule full of ink, which is inserted into the neck of the nib.
- Converter, which allows the writer to load liquid bottled ink and insert it into the writing instrument.

### CROSS OFFERS FIVE DIFFERENT MATERIALS:

**ENGRAVING SERVICES**

**STANDARD ENGRAVING**

Most Cross writing instruments have an area on the cap for engraving. Standard caps accept one line of engraving. The barrel section of writing instruments cannot be engraved.

- Engraving methods for precious metal caps include drag, deep-cut without colour, deep-cut enamel filled, and laser.
- Drag engraving offers a choice of block, script, and double-line Gothic type styles.
- For deep-cut, enamel-filled engraving, type styles include block, script, and Times Regular. Colour-fill options vary by product. Medalist and chrome-plated finishes accept gold tone. Lacquer finishes with gold-plated appointments are colour-filled with gold tone. Lacquer and satin finishes with rhodium- or chrome-plated appointments are filled with silver tone.
- For standard engraving, production lead time is three to five working days. Please allow ten working days for personalised signature engraving.

EXCLUSIVE CROSS FINISHES

Cross offers a variety of precious metals in our Classic Century, Century II, Townsend, and Cross Peerless 125 product lines. These collections are made from the finest and most precious metals on earth. From Sterling Silver to Platinum Plated to 10CT Gold Filled, 14CT Gold Filled, and Solid 18CT Gold, these items have long served as the hallmark of Cross craftsmanship, beauty, and renowned quality. Some points of differentiation in the Precious Metals Collection:

STERLING SILVER
Sterling silver must contain 92.5% silver. The balance can be any other material, but is mostly copper for increased durability. These pens have a softer feel to them, and carry an elegance that grows with age.

SOLID 21CT GOLD
To craft our first-ever solid-gold pen, we had a special 21CT gold custom-wrought. This gold is more precious than 18CT gold, but harder than 24CT gold, to create a more enduring finish for a solid-gold pen. It’s simply beautiful, and we believe it’s the only 21CT solid-gold pen in the world.

PLATINUM PLATE
A contemporary update to the 100-year-old technique of electroplating, the use of platinum provides a clean, universal shine that is unmatched in any other precious metal. Perhaps the most in-demand of the precious metals collection, platinum offers elegance, style, and versatility.

RHODIUM PLATE
Rhodium, like gold, is a noble precious metal with a bright white colour. It is non tarnishing and will remain shiny throughout its life.

SOLID 18CT GOLD
Our stunning 18CT gold offerings are 75% pure gold. A much softer metal than the other gold offerings in our line, its shade is the gold most commonly associated with the metal itself. Notable by a single black lacquer band around the top of the cap in our Century line. The 18CT offerings mark the finest in quality and are true heirlooms. The cap and barrel of the pens are 100% 18CT gold. While the content of the gold itself is not pure gold in our 18CT offerings, the pen shells are made of 18CT gold.

GOLD FILLED OR ROLLED GOLD
Also called gold overlay. A layer of either 10CT, 14CT, or 18CT gold is permanently bonded by heat and pressure to the surface of a support metal, then rolled or drawn to a prescribed thickness. The result is a higher gold content than would be achievable through gold plating, and due to the strength of the metal to which it is bonded, is actually stronger than solid gold. Gold filled provides the look and feel of solid gold, but without the natural softness and sensitivity of this precious metal.

WARRANTIES

WRITING INSTRUMENT FULL PERPETUAL WARRANTY
All Cross writing instruments and desk set penholder mechanisms are unquestionably guaranteed against mechanical failure, regardless of age. Any Cross product or part requiring service under this warranty will be repaired or replaced at no charge when received at our factory from the consumer (postage and insurance are the responsibility of the consumer and processing fees may apply). Any such product that is no longer in production and cannot be repaired will be replaced with a comparable Cross product. Leads, erasers, ink refills and stylus tips exhausted in the course of normal use, and emblems and other customised decoration, are excluded from this warranty; also excluded are fountain pen nibs and other parts damaged from impact, unreasonable use or obvious abuse, as well as wear, aging discolouration or other deterioration of the leather wrapping. The Cross guarantee extends our assurance of a lifetime of writing pleasure to every owner of a Cross writing instrument. This warranty gives you specific legal rights, and you may have other rights which vary from state to state or jurisdiction to jurisdiction. Customers are advised to obtain insurance against loss or damage when shipping products to Cross. Without proof of shipment, Cross cannot replace product it does not receive.

APPLICABLE TO STYLUS TIPS
In no event shall CROSS be liable for incidental or consequential damages of any kind or character including, without limitation, physical damage to the surface of hand-held PCs, cell phones, smart phones or other electronic devices. Some states and jurisdictions do not allow the exclusion of incidental or consequential damages, so the above exclusions may not apply to you.

LEATHER FULL TWO YEAR WARRANTY
All Cross personal accessories are unquestionably guaranteed against mechanical failure and defects in workmanship for two years from the date of purchase. Any Cross accessory or part requiring service under this warranty will be repaired or replaced at no charge when received from the consumer at our factory. Postage and insurance are the responsibility of the consumer, and shipping and handling fees may apply. Any such product that is no longer in production and cannot be repaired will be replaced with a comparable Cross product. Logos, engraving and other decorations are excluded from this warranty, as are parts damaged from impact, unreasonable use or obvious abuse and materials which become worn in the course of normal use.

This warranty gives you specific legal rights, and you may have other rights which vary from state to state or jurisdiction to jurisdiction.
