FIT TIPS

1 RESTRICTIONS

- 1a Do not exceed the maximum load recommended by the car manufacturer.
- 1b Do not load large, long, or heavy objects on rack (furniture, boats, sailboards, car top boxes, etc.).
- 1c Skis and/or snowboards only. The 2 door short roof adapter (A21116) is required for any other loads. See other fit for this vehicle on next line.
- 1d Skis and/or snowboards only.
- 1f For vehicles with factory installed raised* longitudinal roof racks only (*as opposed to flush mounted rails).
- 1g For models with hard top only.
- 1i For vehicles without factory installed roof racks only.

3 MOUNTING INDICATIONS

- 3b Install hook in groove above door.
- 3c Insert hook between rubber molding and solid roof detail (use a plastic card, calling card type, to gently pry molding away from vehicle).
- 3h Separate rubber molding from roof sill, insert hook on sill, then reposition molding.
- 3m Anchor to roof edge.
- 3u Attachment mechanism must be extremely tight to secure bar on roof.
- 3x Do not overtighten the bars (may damage the roof contour).
- 3y Both sides of the bar must be tightened simultaneously.
- 4i Hold the hook while tightening the mechanism.
- 4j Tighten until the hook deforms. The deformation must be big enough so that the rubbered surface of the hook is fully in contact with the car anchoring surface.
- 4l Insert hook between rubber molding and plastic or chromed molding.
- 4o Tighten bars until they are firm. Overtightening may deform the roof panel of the vehicle.

5 INSTALLATION POSITIONS

- 5f Install hook at manufacturer's recommended point of attachment.

9 MISCELLANEOUS

- 9b Sun roof will not open.
- 9d Remove rack when not in use: the rubber door seal or trim may deform under prolonged contact with any roof rack hooks.
- 9f There is another reference on the next line for vehicles with factory installed raised* longitudinal roof racks (*as opposed to flush mounted rails).
- 9o The 2 door short roof adapter (A21116) is required for any load other than skis and/or snowboards.
- 9q Skis and/or snowboards and bicycles only.
- 10a If your vehicle has factory crossbars, you do not need to purchase an additional rack system.
- 10b Factory crossbars are required to fit boxes and bags to this vehicle. Please contact your auto manufacturer to purchase these crossbars.
