MAX·Q+
MODULAR SERIES
700-1,850 GPD

STILL
THE WORLD'S FINEST WATERMAKER.

The **Max-Q+** and **Max-Q+APC** are the latest evolution of the Max-Q product line. Our exclusive V4 control system utilizes a high resolution marine-grade 7-inch touch screen panel with an advanced intuitive interface. Operating and controlling a Watermaker has never been easier. With the optional APC, Automated Pressure Control, making water is literally a touch away.

FCI has been manufacturing watermakers and water purification equipment for over two decades. We design and manufacture all of our equipment in-house for optimum quality control, and to ensure you are getting the most reliable watermaker on the market today. You have the comfort of knowing a company which has been in business for over 20 years, and specializing in only watermakers, is here for you.

THE INDUSTRY'S MOST RELIABLE WATERMAKER PUTS COMPLETE AUTOMATION AT YOUR FINGERTIPS. FCI's next generation controller and interface allows customization of your watermaker through intuitive advanced touch screen controls. Our monitors' higher heat tolerance and system design allows it to work in the harshest environments. FCI touch screen controllers can be installed with confidence, because they are Bridge Classified for marine use with Type Approval Certifications from: ABS, GL, Lloyd's Register EMEA, Det Norske Veritas, and Russian Maritime Register of Shipping.

FCI Watermakers
THE WORLD'S FINEST
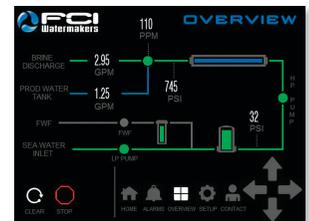

MAX-Q+ FEATURES:

– New marine grade 7"
  high resolution touch
  screen controller
– Monitors are Type Approval Certified for
  marine use by: ABS, GL, Lloyd's Register
  EMEA, Det Norske Veritas, and Russian
  Maritime Register of Shipping.
– New NMEA 2000 compatible
– Unique IP address for
  remote access
– Built-in, on-screen troubleshooting
– Small frame footprint
– Ability to relocate Pressure Vessel
  Assembly and FWF Assembly to
  reduce frame footprint
– 316SS Boost Pump
– 316SS HP Pump
– Visual indication of product
  and brine flow
– Upgradeable to 1,850 GPD
– Fully automatic programmable Fresh
  Water Flush with carbon block filter
– Standard 40 sq. ft.
  commercial Pre-filter
– Dual hertz motors for 50 or
  60 hertz operation
– Multiple display station capabilities
– 40 sq. ft. of 5μ micron
  pleated filtration
– Vibration isolation
– Automatic Flush system
– Washdown Duty Motors
– Flow sensors
– 316SS pressure transducers
– Pretreatment lockout
– Two year warranty
– Complete exploded view manuals
– One-piece skid mount design

OPTIONAL EQUIPMENT / ACCESSORIES:

– DTS, Dockside Treatment System
  Compatible
– Bridge classified 4.3" or 7"
  remote touch control station
– pH neutralizer filter
– Cruising kits
– UV sterilizers
– Feed water pressure regulators, relief
  valves and feed pump
– Automated and manual Media Filters
– Custom system designs
– System soft start

MAX·Q+APC

Adds a fully **Automated Pressure Control** feature with manual override.

MODEL	GPD/LPD	GPH/LPH	HP	KW	VOLTAGE	WEIGHT
MQM726+ / MQM726+APC	700/2649	29/110	2.5	2.29	120/220/380, 1-ph, 3-ph, 50/60 Hz	185 lbs

DTS COMPATIBLE.

The FCI Dockside Treatment System (DTS) is a FCI Watermakers innovation specifically designed to treat dock water while utilizing your existing watermaker pump and control system. Create purified drinking water, and enjoy spot-free wash-downs from your dockside source at minimal cost. The FCI DTS add-on component is installed in-line, and because no additional pumps or secondary system are necessary, installation is a breeze. The FCI DTS encompasses the quality and reliability you have come to know with FCI Watermakers.
