# AMERICAN MODERN

STANLEY FURNITURE'S AMERICAN MODERN collection is a contemporary and confident collection with a decidedly urban point of view. Unexpected accents and unwavering attention to detail create a variety of looks within this collection.

Crafted of maple solids with cherry veneers and light distressing, American Modern features geometric grid patterns on cabinet doors, headboards and chair backs. Classic 20th century elements, such as box miter drawer construction and saber legs, anchor this collection, while accents of smokey leather add depth and excitement.

As you examine the pieces in this remarkable collection, you'll be impressed by the rich design details and the masterful workmanship throughout. Each piece—whether for dining room, bedroom, family room, living room or home office—is designed to make a statement about you and your good taste.

Best of all, because Stanley Furniture builds exceptional quality into American Modern at every step of the furniture making process, you can be sure the selections you make today will remain a treasured part of your life for years to come.

**-100 INFRARED REMOTE READER**

The infrared remote reader transfers your remote control signals to your audio/video components even if they are positioned behind wood panel doors, eliminating the need to insert glass panels. The infrared reader includes a receiver with mounting block, an infrared repeater control unit with power cord and three emitters. Each emitter, when properly positioned on the interior of the case, will transfer your remote control signal to the audio/video components positioned on one shelf. The system is easy to install and use. No programming is needed and the emitters may be repositioned as your audio/video components or configurations change.

\*Please measure your television prior to purchase to assure proper fit. Actual TV dimensions vary by manufacturer and model.
