

INSPIRED BY THE LINEAR STYLE OF THE Arts and Crafts movement; a distinctive look which dates back to the turn of the 20th century, but remains popular even today, Basecamp promises a lifetime of enduring style. Strong, masculine, timeless, Basecamp's craftsmanship will see your child through all life's adventures.

There's nothing fussy about Basecamp. Muscular lines, exposed joinery and heavy distressing lend an aged, rugged look and allow Basecamp to stand up to the rough and tumble world of boys of all ages.

Crafted from maple and select hardwood solids with cherry veneers, Basecamp is finished in warm cherry with heavy distressing. Comfort and functionality rule the design and Basecamp offers plenty of both with a variety of pieces to cover almost any sleep, storage and study need.

When it comes to kids, you can't be too safe. So like all of our furniture, Basecamp is made in our factory in Robbinsville, NC and features our exclusive SafeT3™ process—three levels of product and environmental safeguards designed to ensure that our furniture is the safest you can buy.

Create the perfect Basecamp for your son.

RUSTIC CHERRY ANTIQUE 37

TV/GAMING CONSOLE NO LONGER AVAILABLE.

IN THE DETAILS

BEAUTY IS IN THE DETAILS and that's especially true with this collection. Crafted from wood that's harvested exclusively from sustainable forests in North America, Basecamp is just one example of how we're able to reduce our carbon footprint on the environment by not importing lumber from a foreign source. Take a closer look at what makes Basecamp such a natural beauty.

Finish / Wood Characteristics

Rustic Cherry Antique – Basecamp is crafted from maple and select hardwood solids, plus cherry veneers and hand finished in rich warm cherry with heavy distressing such as fly-specking, worm holes and rasping.

RUSTIC CHERRY ANTIQUE 37

Quality Cues

It's one thing to claim quality and another to prove it. Young America is a work of art down to its core. We start with high quality American hardwoods and veneers from sustainable forests, then we build on the tradition of craftsmanship we've practiced for nearly a century.

- ✓ Wooden mattress platforms for all cribs
- ✓ Dovetailed drawers in front and back
- ✓ Mortise and tenon joints
- ✓ Clear coated finished drawers
- ✓ Corner blocked under drawer construction
- ✓ Solid hardwood corner blocks are glued and fastened in place with screws to strengthen the cases and chairs

WOODEN MATTRESS PLATFORM
An attached wooden mattress platform further insures the safety of your little one. Because their security gives you sweet dreams.

Hardware

Basecamp features heavy brushed brass bails on drawers with brushed brass knobs on smaller drawers.

BRUSHED BRASS KNOB

BRUSHED BRASS BAIL

DOVETAILING
Old-fashioned craftsmanship for strength and lasting fit

WOOD CORNER BLOCKS
Grooved, glued and fastened in place with screws for the most sturdy fits

SLIDE-IN BACK PANELS
Completely sealed case protects precious contents. Screws, not staples, add strength.

ADJUSTABLE LEVELERS
Adjustable inserts allow for easy set-up in older homes where floors may not be exactly level

Safety and Function Features

Look for the icons below in the product specification pages to learn more about the different features offered.

DRAWER STOPS

Heavy-duty metal guides slide smoothly, prevent warping and offer patented automatic stops preventing dangerous spills.

HI-LO BEDRAIL LOCKING SYSTEM

Hi-lock position raises the bed to accommodate underbed storage or sleep options. Or, select the Lo-lock position and add our PSR-3267 Pair Safety Rails to easily convert most twin and double beds to a transition bed.

ADJUSTABLE LEVELERS

Adjustable inserts allow for easy set-up in older homes where floors may not be exactly level.

SLAT-ROLL MATTRESS SUPPORT

Handy when underbed options are used, and bed rails are in Hi-lock position or a transition bed configuration. Each wood slat fastens with screws providing support without the need for a box spring or a bunkie board. Your mattress rests directly on the slat roll.

TIP RESTRAINTS

Taller cases feature our anti-tipping kit that can secure the backs of cases to the wall deterring dangerous tipping.

ELECTRONICS READY

Openings in convenient but discreet places that allow cords to pass through.

CAPTAIN'S STORAGE DRAWERS

Recognizing kid's rooms are often small, this storage option helps save valuable floor space.

UNDERBED SPACE SAVER

A useful and easy option when a quick need for additional sleep space is needed.

UNDERBED TRUNDLE UNIT

Provides additional sleep and storage room when space is at a premium.

890-0013 BOOKCASE (details p. 23)
RUSTIC CHERRY ANTIQUE 37

safety first.

At Young America, we believe that when it comes to kids you can't be too safe. That thought guides every decision we make about our furniture and led us to develop Young America's exclusive **SafeT3** process—three levels of product and environmental safeguards designed to ensure that our furniture is the safest you can buy.

safety engineered

Safety doesn't just happen. It's achieved. That's why our commitment to safety begins before the first piece of lumber is ever cut—in the planning phase.

We've developed our own system of safety features that surpass even the most stringent mandatory safety regulations set by the Consumer Product Safety Commission (CPSC). And Young America doesn't stop there; we also exceed the voluntary product safety guidelines created by groups such as the Juvenile Product Manufacturers Association (JPMA) and the American Society of Testing and Materials (ASTM). We're actively

involved with these groups to encourage increased regulation and even more stringent standards.

second. and third.

safety built

This is where the rubber meets the road safety-wise. From the way it's built to the materials we use, Young America's commitment to creating the safest possible environment for your child is easy to see.

Quality Made in the USA

It's easier to ensure safety when your products are made close to home by our own employees. That's why all but a few component parts of our furniture are made right here in our Robbinsville, North Carolina factory. Those parts that aren't are subject to the same industry-leading quality and safety standards as the rest of our products.

We start with high quality American hardwoods and veneers from sustainable forests located within 300 miles of our factories, then build on the tradition of craftsmanship we've practiced since 1924, with features like mortise and tenon joints, dovetailed drawers in front and back and

wooden mattress platforms for all cribs. All our paints and finishes are phthalate- and lead-free.

Green. In Every Color.

Made in the USA is also good for our environment. Because our products don't have to ship from overseas, we reduce our carbon footprint. We also work to reduce packaging materials and recover and reuse manufacturing materials, further reducing our impact on the planet.

safety certified

It's one thing to say you're safe and another thing to prove it, so Young America invites third party certification for our products.

Intertek

Intertek, the leading independent third party certification lab for safety and design, takes us beyond testing, by inspecting and certifying our products. We reduce risk by incorporating safe manufacturing principles and processes, and mitigate mistakes that undermine quality or safety.

Intertek

GREENGUARD®

Children spend nearly 85% of their time indoors, where the air can be two-to-five times more polluted than outdoor air because of toxic chemical emissions from everyday products. GREENGUARD Certification means our product have been independently tested to meet the most stringent chemical emissions standards in the world.

Testing in a dynamic environmental chamber where air flow simulates actual use.

Children grow. Needs change. Taste evolves. Style transforms. In fact, the one thing you can count on with children is change. That's why we build Basecamp—and all Young America furniture—with the ability to adapt to all the changes your child will face.

From the infant safe haven to the rough and tumble world of toddlers, from the multi-use play/chill space of tweens to the uber-private world of teens, your child's room reflects the stages of their lives. Basecamp offers a range of sleep storage and study options to see them through it all.

What's more, our commitment to quality construction means Basecamp is built to withstand more than just the day-to-day rigors of childhood; it's built to endure the year-to-year tests of today's youth. Plus its strong, spare lines stylishly accommodate decades of room makeovers.

1
infant

Your infant needs sleep. Focus on a safe, comforting environment where all the essentials are within reach.

2
preschool

Your preschooler is filled with curiosity. Choose furniture that promotes safe exploration, and can hold all the toys a young explorer needs.

3
tween

Your tween needs space to study and play. Focus on furniture that plays multiple roles, so the room doesn't become too crowded.

4
teen

Your teen needs storage, storage and storage. Make sure his or her refuge has space for everything so it doesn't end up on the floor.

Built to Grow cribs provide safety at every stage as they change with your child offering a full range of storage options to see them from infancy through toddler, tween and teenage years.
