# INTREPID EXPLORER SEEKS RELAXING HOME BASE.

The cool lines and uncluttered appearance of Boardwalk™ project an upright sophistication and a relaxed confidence. The exact qualities one might find in a kid destined to go places. That's because Boardwalk is styled with members of the adventure set in mind.

# A SOLID CASE FOR SELF EXPRESSION.

With your investment in mind, we craft each piece in Boardwalk from kiln-dried North American hardwoods and maple veneers. Our new finish palette is just as attentive to beauty and longevity. A hand-weathered effect, available in paint finishes, exposes the undercoat around soft corners and edges. The careful distressing and artful application of a contrasting tint “antiques” wood tone finishes to project a casual mood.

With its Made in America quality and safety, its design innovation, and incomparable styling and finish options, Young America helps you create environments that are inspiring, safe, nurturing and healthy for your child. It is in these spaces your child will wonder, create, grow and ultimately become whatever he or she is meant to be.

A safe environment is a pretty big responsibility, and one Young America takes very seriously; so seriously that internal processes for safety testing and quality control surpass even the most stringent regulations set down by the Consumer Products Safety Commission. From the green initiatives for sourcing lumber, to the special formulation of paints and finishes that are sensitive to the indoor air quality, Young America, more than any other manufacturer, takes the safety of your child's personal space to heart.

Safety is in the details.
