

CAROLINE

THINK FRILLY DRESSES, TEA PARTIES, porcelain dolls and storybook characters from days gone by. The Victorian styling and crisp white finish of Caroline set a soft, feminine, romantic tone for your nursery.

But don't be fooled by Caroline's Victorian heritage. Beneath its elegant façade lies modern-day functionality with sleep, storage, study and computer pieces that will make your daughter's room command central for years.

A classic look that endures for generations, Caroline features graceful lines with shaped pilasters, decorative drop-bail hardware and a stunning beaded overlay. The collection's carefully chosen hardwood solids and veneers provide the kind of durability that will keep it looking as beautiful when she's off to college as it was on the first night in her crib.

Like all Young America furniture, Caroline is made entirely in the USA, delivering unequalled safety, quality and style. Plus, our product is GREENGUARD® Certified—which means they meet the most stringent chemical emissions standards in the world.

See if Caroline is the perfect match for your little lady.

youngAmerica®
MADE IN THE USA

CAROLINE

IN THE DETAILS

BEAUTY IS IN THE DETAILS and that's especially true with this collection. Crafted from wood that's harvested exclusively from sustainable forests in North America, Caroline is just one example of how we're able to reduce our carbon footprint on the environment by not importing lumber from a foreign source. Take a closer look at what makes Caroline such a natural beauty.

Finish / Wood Characteristics

Victorian White – Caroline is crafted from Poplar and select hardwood solids, plus select hardwood veneers and hand finished in soft white for a timeless romantic look.

VICTORIAN WHITE F1

Hardware

Decorative drop bail hardware is gently antiqued to accentuate the Victorian feel of this collection.

DECORATIVE BAIL HARDWARE

Quality Cues

WOODEN MATTRESS PLATFORM

An attached wooden mattress platform further insures the safety of your little one. Because their security gives you sweet dreams.

It's one thing to claim quality and another to prove it.

Look for these telltale signs of quality in all Young America furniture:

- ✔ Wooden mattress platform for all cribs
- ✔ Dovetail drawers front and back
- ✔ Clear coated, finished drawers
- ✔ Corner blocked under drawer construction
- ✔ Automatic drawer stops
- ✔ Dust panel between each drawer
- ✔ Solid hardwood corner blocks are glued and fastened in place with screws to strengthen the cases and chairs
- ✔ Finished and screwed on back panels
- ✔ Adjustable levelers
- ✔ Tip restraints on all taller cases

DOVETAILING

Old-fashioned craftsmanship for strength and lasting fit

WOOD CORNER BLOCKS

Grooved, glued and fastened in place with screws for the most sturdy fits

SCREWED-IN BACK PANELS

Screws, not staples, provide added strength and stability

ADJUSTABLE LEVELERS

Adjustable inserts allow for easy set-up in older homes where floors may not be exactly level

Committed to Safety

Young America is committed to making beautiful, high quality furniture. Our standard of safety is the highest you can buy for your child.

Intertek

Look for the "Intertek Check" when buying a new crib.

GREENGUARD Certification sets the most stringent indoor air quality standards in the world.

Made in the USA

Young America is committed to being the brand you can trust. As such, we assure you that the safety of our products is foremost in every decision we make. In some instances a small number of certain component parts such as assembly hardware or wood slats for mattress support may originate outside the U.S. and subsequently be assembled, finished and/or packaged by us in our domestic factories. In such cases, we incorporate these components only when we are 100% satisfied that they meet our stringent safety and quality standards. The Young America brand goes on nothing that we have not tested with our own rigorous manufacturing standards and processes.

Children grow. Needs change. Taste evolves. Style transforms. In fact, the one thing you can count on with children is change. That's why we build Caroline—and all Young America furniture—with the ability to adapt to all the changes your child will face.

From the infant safe haven to the rough and tumble world of toddlers, from the multi-use play/chill space of tweens to the uber-private world of teens, your child's room reflects the stages of their lives. Caroline offers a range of sleep storage and study options to see them through it all.

What's more, our commitment to quality construction means Caroline is built to withstand more than just the day-to-day rigors of childhood; it's built to endure the year-to-year tests of today's youth. Plus its romantic, classic lines stylishly accommodate decades of room makeovers.

1
infant

Your infant needs sleep. Focus on a safe, comforting environment where all the essentials are within reach.

2
preschool

Your preschooler is filled with curiosity. Choose furniture that promotes safe exploration, and can hold all the toys a young explorer needs.

3
tween

Your tween needs space to study and play. Focus on furniture that plays multiple roles, so the room doesn't become too crowded.

4
teen

Your teen needs storage, storage and storage. Make sure his or her refuge has space for everything so it doesn't end up on the floor.

Built to Grow cribs provide safety at every stage as they change with your child offering a full range of storage options to see them from infancy through toddler, tween and teenage years.

This mirror's beaded overlay reflects the grace and elegance of this collection.

Ornate drawer pulls highlight dressers and armoires.

Graceful shaped posts add to Caroline's sweetly feminine look.

VICTORIAN WHITE F1

Born here. Raised here. Without compromise.

**MADE IN THE
USA**

Young America is committed to being the brand you can trust. As such, we assure you that the safety of our products is foremost in every decision we make. In some instances a small number of certain component parts such as assembly hardware or wood slats for mattress support may originate outside the U.S. and subsequently be assembled, finished and/or packaged by us in our domestic factories. In such cases, we incorporate these components only when we are 100% satisfied that they meet our stringent safety and quality standards. The Young America brand goes on nothing that we have not tested with our own rigorous manufacturing standards and processes.

SAFETY

Young America not only meets, but also exceeds all mandatory safety regulations set by the Consumer Product Safety Commission (CPSC). The next level of product safety guidelines are voluntary. Groups such as the Juvenile Product Manufacturers Association

(JPMA) and the American Society of Testing and Materials (ASTM) create voluntary standards to guide the furniture industry, which we also exceed. But Young America doesn't stop there. In fact, our company is actively involved with the CPSC and ASTM in helping to fight for increased regulation and to make those standards even more strict.

Then there's the third level of safety assurance; and this is where Young America leads the industry. Intertek, the leading independent third party certification lab for safety and design, helps us go beyond testing, inspecting and certifying products. We reduce risk by incorporating manufacturing principles and processes that ensure consistency and reliability. We mitigate mistakes that can result in a quality or safety issue. Our work with Intertek has earned not only a reputation for value in our products, but an increased level of trust for the Young America brand. Our goal when it comes to safety is simple: We provide our customers with confidence. So look for the "Intertek Check" when you're buying a crib for your child. You'll certainly find it here.

QUALITY

We've been making furniture since 1924. Young America is a work of art with engineering evident down to its core. We start with high quality American hardwoods and veneers from sustainable forests, then we build on the tradition of craftsmanship we've practiced for nearly a century. Look closely and you'll recognize these hallmarks of quality:

- Wooden mattress platforms for all cribs
- Mortise and tenon joints
- Dovetailed drawers in front and back
- Screwed (not stapled) back panels
- Adjustable levelers
- Dust panels
- Wood corner blocks

Keeping an eye on quality is easy when everything's made right under your nose.

CHOICE AND COLOR

Indulge in free expression with Young America's vast array of colors, finishes and styles. In fact, we offer more pieces in more colors than we think you'll find anywhere. The choice is yours.

GREEN

Kids spend nearly 85% of their time indoors, where the air can be two-to-five times more polluted than outdoor air thanks to toxic chemical emissions from everyday products like furniture, electronics, appliances and cleaners. GREENGUARD® Certification means our product has been independently tested to meet the most stringent chemical emissions standards in the world. What's more, by reducing packaging materials and recovering and reusing solvent materials, we reduce the amount of waste created in our manufacturing process.

As a founding member of the Sustainable Furnishings Council, Young America leads the industry in addressing our environmental challenges. We are proud members of Appalachian Hardwood Manufacturers Incorporated, procuring the vast majority of our lumber from within 300 miles of our factories. This supports domestic mills, not to mention our country's efforts towards reforestation.

Last, but certainly not least, by making our products in the USA, we're not polluting the air using fossil fuels to ship our products across oceans just to get it to you.

For more information, visit youngAmerica.com.

Testing in dynamic environmental chamber where air flow simulates actual use.

Look for the icons below in the product specification pages to learn more about the different features offered by Young America.

DRAWER STOPS

Heavy-duty metal guides slide smoothly, prevent warping and offer patented automatic stops preventing dangerous spills.

HI-LO BEDRAIL LOCKING SYSTEM

Hi-lock position raises the bed to accommodate underbed storage or sleep options. Or, select the Lo-lock position and add our

PSR-0267 Pair Safety Rails to easily convert most twin and double beds to a transition bed.

ADJUSTABLE LEVELERS

Adjustable inserts allow for easy set-up in older homes where floors may not be exactly level.

SLAT-ROLL MATTRESS SUPPORT

Handy when underbed options are utilized, and bed rails are in Hi-lock position or a transition bed configuration. Each wood slat

fastens with screws providing support without the need for a box spring or a bunkie board. Your mattress rests directly on the slat roll.

TIP RESTRAINTS

Taller cases feature our anti-tipping kit that can secure the backs of cases to the wall deterring dangerous tipping.

ELECTRONICS READY

Openings in convenient but discreet places that allow cords to pass through.

UNDERBED SPACE SAVER

A useful and easy option when a quick need for additional sleep space is needed.

UNDERBED TRUNDLE UNIT

Provides additional sleep and storage room when space is at a premium.

WALL UNITS

Create storage central with our customizable wall units. Choose from a range of bookcases and storage hutches to create your base. Then pair it with whatever you need. Baby's room? Choose a dresser with a changing station. Tween haven? Tuck a cozy bed between bookcases. Study time? Fit a desk within arms reach of all their essentials. The best part is that no matter where you start, your storage can grow right along with your child.
