TIMELESS. AGELESS. ICONIC. FIRST-CLASS. ARCHETYPAL. They all mean “classic.” Trends are all well and good, but sometimes you crave that which is enduring. You need to surround yourself with things that you know will stand the test of time. That is why we created The Classic Portfolio.

Have you ever asked yourself why some things never go out of style? The little black dress, a red sports car, a great steak? The reason is deceptively simple. When something is so perfect from the outset, there is simply no room for improvement.

It is the same with furniture—some looks are so enduring, they have not only stood the test of time, but influenced the styles that followed.

Beyond its gracious aura of refinement, it is the details found in European Cottage that ultimately give it distinction. Flowing, serpentine fronts are just one of the many signature touches that make it approachable. Tapered legs and gently curved, fluted feet lend another element of personality to individual pieces, while score-lined tops harken back to antique plank top dressers.

Handwork is equally evident in European Cottage’s two finish options. Vintage White incorporates a multitude of techniques, from crackling to gesso. Combined they impart a well-loved, antique charm. Chalkboard, a dusty black, painted finish is further customized with heavy distressing. Finally, the same finishes are captured on the metal hardware for another custom and authentic touch.

Great products, great finishes, great scale, great design—these make up the heart and soul of European Cottage and all of The Classic Portfolio. No matter what room in your home, when you want the finest in quality and style, there is no better foundation

ELEMENTS OF STYLE

finish / wood characteristics

Multiple layers of dimension craft a tactile appeal in European Cottage's two finish options—Vintage White and Chalkboard. Vintage White incorporates techniques such as tea staining and gouging for a finish that showcases extensive artisan skill. Chalkboard features its own level of craftsmanship with its use of powder glaze and hatchet marks. The end results are two finish choices that have the appearance of heirlooms passed down through the generations.

hardware

Intricate, yet substantial, the metal hardware used on European Cottage is finished on the case, ensuring that the look is consistent with the entirety of the design. Finely sculpted bails and simple, but detailed, knobs meld perfectly with the sensibility of the collection.
