TIMELESS. AGELESS. ICONIC. FIRST-CLASS. ARCHETYPAL. They all mean “classic.” Trends are all well and good, but sometimes you crave that which is enduring. You need to surround yourself with things that you know will stand the test of time. That is why we created The Classic Portfolio.

Have you ever asked yourself why some things never go out of style? The little black dress, a red sports car, a great steak? The reason is deceptively simple. When something is so perfect from the outset, there is simply no room for improvement.

It is the same with furniture—some looks are so enduring, they have not only stood the test of time, but influenced the styles that followed.

Paying homage to Europe’s renowned artistic influence, Old World melds the best of French and Italian country design with today’s dining needs. The result is both casual and sophisticated, offering comfort in its rustic gentility. Details such as substantial turned legs and gently curved lines point to the collection’s inherent graciousness and warmth.

More evidence of Old World’s relaxed manner is found in the proportion and finishes. Designed for everyday use, pieces are scaled for more intimate spaces. The highly-distressed finishes, Shoal and Belgian White, impart even more style and refinement. Working separately and together, both serve to highlight the beauty of the wood grain. The only additional decorations are the understated knobs finished in an antique pewter.

Great products, great finishes, great scale, great design—these make up the heart and soul of Old World and all of The Classic Portfolio. No matter what room in your home, when you want the finest in quality and style, there is no better foundation.

Start building your classic décor today.

ELEMENTS OF STYLE

finish / wood characteristics

Old World is finished in two distinctive, yet casual, options—Shoal and Belgian White. Shoal is a rustic light wood tone which features heavy distressing techniques. Belgian White imparts an almost white-washed appearance that allows the natural tone of the underlying wood to peek through.

Keeping it simple has never been more beautiful. Finished in antique pewter, these subtle adornments are a natural and sincere final detail.
