

TAKE A STRONG MEASURE OF vintage modern, add a dash of Danish design and a smidge of transitional style and what have you got? Mix: a delightfully timeless combination of yesterday and today, vintage and modern, form and function.

The power of Mix lies in the strong, spare lines of its Mid-Century Modern heritage. This groundbreaking style, defined by sleek, clean uncluttered design, is as relevant today as it was over 50 years ago. It makes both a bold design statement and provides a veritable blank slate at the very same time.

Combine any of the five accent finishes to create a two-toned monument to the beauty of wood, or pair a finish with one of the 17 paint colors to create a look that's uniquely yours. As for hardware, simple, soft knobs function as the only adornment.

Mix's spare beauty may appear casual, but when it comes to safety, the collection is ultra-serious. Like all Young America furniture, it is made in our Robbinsville, NC factory and features our exclusive SafeT3™ process—three levels of product and environmental safeguards designed to ensure that our furniture is the safest you can buy.

Explore the nearly limitless possibilities of Mix.

MADE IN THE USA

MIX

# IN THE DETAILS

BEAUTY IS IN THE DETAILS and that's especially true with this collection. Crafted from wood that's harvested exclusively from sustainable forests in North America, Mix is just one example of how we're able to reduce our carbon footprint on the environment by not importing lumber from a foreign source. Take a closer look at what makes Mix such a natural beauty.

## Finish / Wood Characteristics

---

Crafted from clear Northern hard white maple, maple with select hardwood solids and Northern hard white maple and maple veneers, Mix features a range of mix-and-match stain finishes and paint options that allow you to create a truly customized look.

## Quality Cues

It's one thing to claim quality and another to prove it. Young America is a work of art down to its core. We start with high quality American hardwoods and veneers from sustainable forests, then we build on the tradition of craftsmanship we've practiced for nearly a century.

- ✔ Wooden mattress platforms for all cribs
- ✔ Dovetailed drawers in front and back
- ✔ Mortise and tenon joints
- ✔ Clear coated finished drawers
- ✔ Corner blocked under drawer construction
- ✔ Solid hardwood corner blocks are glued and fastened in place with screws to strengthen the cases and chairs

**WOODEN MATTRESS PLATFORM**  
An attached wooden mattress platform further insures the safety of your little one. Because their security gives you sweet dreams.

**DOVETAILING**  
Old-fashioned craftsmanship for strength and lasting fit

**WOOD CORNER BLOCKS**  
Grooved, glued and fastened in place with screws for the most sturdy fits

**SLIDE-IN BACK PANELS**  
Completely sealed case protects precious contents. Screws, not staples, add strength

**ADJUSTABLE LEVELERS**  
Adjustable inserts allow for easy set-up in older homes where floors may not be exactly level

## Safety and Function Features

Look for the icons below in the product specification pages to learn more about the different features offered.

### DRAWER STOPS

Heavy-duty metal guides slide smoothly, prevent warping and offer patented automatic stops preventing dangerous spills.

### HI-LO BEDRAIL LOCKING SYSTEM

Hi-lock position raises the bed to accommodate underbed storage or sleep options. Or, select the Lo-lock position and add our PSR-3267 Pair Safety Rails to easily convert most twin and double beds to a transition bed.

### ADJUSTABLE LEVELERS

Adjustable inserts allow for easy set-up in older homes where floors may not be exactly level.

### SLAT-ROLL MATTRESS SUPPORT

Handy when underbed options are used, and bed rails are in Hi-lock position or a transition bed configuration. Each wood slat fastens with screws providing support without the need for a box spring or a bunkie board. Your mattress rests directly on the slat roll.

### TIP RESTRAINTS

Taller cases feature our anti-tipping kit that can secure the backs of cases to the wall deterring dangerous tipping.

### ELECTRONICS READY

Openings in convenient but discreet places that allow cords to pass through.

### CAPTAIN'S STORAGE DRAWERS

Recognizing kid's rooms are often small, this storage option helps save valuable floor space.

### UNDERBED SPACE SAVER

A useful and easy option when a quick need for additional sleep space is needed.

### UNDERBED TRUNDLE UNIT

Provides additional sleep and storage room when space is at a premium.

# IN THE DETAILS

MIX OFFERS SOMETHING FOR EVERYONE and can be configured to express your individuality. Whether you choose a single finish or a combination using any of the five accent finish options, we're sure that you'll achieve a look you'll love for years to come.

# safety first.

At Young America, we believe that when it comes to kids you can't be too safe. That thought guides every decision we make about our furniture and led us to develop Young America's exclusive **SafeT3** process—three levels of product and environmental safeguards designed to ensure that our furniture is the safest you can buy.

## safety engineered

Safety doesn't just happen. It's achieved. That's why our commitment to safety begins before the first piece of lumber is ever cut—in the planning phase.

We've developed our own system of safety features that surpass even the most stringent mandatory safety regulations set by the Consumer Product Safety Commission (CPSC). And Young America doesn't stop there; we also exceed the voluntary product safety guidelines created by groups such as the Juvenile Product Manufacturers Association (JPMA) and the American Society of Testing and Materials (ASTM). We're actively

involved with these groups to encourage increased regulation and even more stringent standards.

# second. and third.

## safety built

This is where the rubber meets the road safety-wise. From the way it's built to the materials we use, Young America's commitment to creating the safest possible environment for your child is easy to see.

## Quality Made in the USA

It's easier to ensure safety when your products are made close to home by our own employees. That's why all but a few component parts of our furniture are made right here in our Robbinsville, North Carolina factory. Those parts that aren't are subject to the same industry-leading quality and safety standards as the rest of our products.

We start with high quality American hardwoods and veneers from sustainable forests located within 300 miles of our factories, then build on the tradition of craftsmanship we've practiced since 1924, with features like mortise and tenon joints, dovetailed drawers in front and back and

wooden mattress platforms for all cribs. All our paints and finishes are phthalate- and lead-free.

## Green. In Every Color.

Made in the USA is also good for our environment. Because our products don't have to ship from overseas, we reduce our carbon footprint. We also work to reduce packaging materials and recover and reuse manufacturing materials, further reducing our impact on the planet.

## safety certified

It's one thing to say you're safe and another thing to prove it, so Young America invites third party certification for our products.

### Intertek

Intertek, the leading independent third party certification lab for safety and design, takes us beyond testing, by inspecting and certifying our products. We reduce risk by incorporating safe manufacturing principles and processes, and mitigate mistakes that undermine quality or safety.

**Intertek**

### GREENGUARD®

Children spend nearly 85% of their time indoors, where the air can be two-to-five times more polluted than outdoor air because of toxic chemical emissions from everyday products. GREENGUARD Certification means our products have been independently tested to meet the most stringent chemical emissions standards in the world.

Testing in a dynamic environmental chamber where air flow simulates actual use.

Children grow. Needs change. Taste evolves. Style transforms. In fact, the one thing you can count on with children is change. That's why we build Mix—and all Young America furniture—with the ability to adapt to all the changes your child will face.

From the infant safe haven to the rough and tumble world of toddlers, from the multi-use play/chill space of tweens to the uber-private world of teens, your child's room reflects the stages of their lives. Mix offers a range of sleep, storage and study options to see them through it all.

What's more, our commitment to quality construction means Mix is built to withstand more than just the day-to-day rigors of childhood; it's built to endure the year-to-year tests of today's youth. Plus its timeless style will accommodate decades of room makeovers.

<b>1</b> infant	<b>2</b> preschool	<b>3</b> tween	<b>4</b> teen
<p>Your infant needs sleep. Focus on a safe, comforting environment where all the essentials are within reach.</p>	<p>Your preschooler is filled with curiosity. Choose furniture that promotes safe exploration, and can hold all the toys a young explorer needs.</p>	<p>Your tween needs space to study and play. Focus on furniture that plays multiple roles, so the room doesn't become too crowded.</p>	<p>Your teen needs storage, storage and storage. Make sure his or her refuge has space for everything so it doesn't end up on the floor.</p>

Built to Grow cribs provide safety at every stage as they change with your child offering a full range of storage options to see them from infancy through toddler, tween and teenage years.

We can't give you an extra hand, but we can provide an easy pullout shelf to keep baby essentials in reach.
