You'll sleep easier when it's Young America.

With its Made in America quality and safety, its design innovation, and incomparable styling and finish detail, Young America helps you create environments that are inspiring, safe, nurturing and healthy for your child. It is in these spaces your child will wonder, create, grow and ultimately become whatever he or she is meant to be.

A safe environment is a pretty big responsibility, and one Young America takes very seriously; so seriously that internal systems for safety testing and quality control surpass even the most stringent regulations set down by the Consumer Products Safety Commission. From the green initiatives for sourcing lumber, to the special formulation of paints and finishes that are sensitive to the indoor air quality, Young America, more than any other manufacturer, takes the safety of your child's personal space to heart.

An open-and-shut case of craftsmanship and ingenuity.

It's OK to judge a dresser by its drawers. Ours have English dovetails in all four corners and state-of-the-art slides that use Silent System technology. Get the drawer started (with a nudge from the hip when your hands are full, for instance) and it closes on its own – quietly and safely
