

SUNSET KEY®

Stanley  
FURNITURE

# SUNSET KEY®

SUNSET KEY reflects a sophisticated casual elegance reminiscent of sun-drenched tropical islands. This collection reinterprets the breezy West Indies tropical design.

The warm rum, heavily distressed finish emphasizes the easygoing character of the collection. This rich finish accentuates a unique mix of materials to create interesting new design elements. These include woven cane door panels, half-round column pilasters capped with pierced antique brass collars, beaded drawer fronts, nautilus and pineapple motif leg carvings, abaca accents, and woven split rattan

and kenai sea grass surfaces. Many pieces offer the option of reversible doors for decorative variety. Antique weathered brass hardware and subtle antique metal accents are used throughout the collection. All these fine details culminate in furniture for your home, whether your first or second home, that is designed to make a statement about you and your fine taste in comfortable surroundings.

Best of all, because Stanley Furniture builds exceptional quality into Sunset Key at every step of the furniture-making process, you can be sure the selections you make today will remain a treasured part of your life for years to come.

finish / wood characteristics and hardware

SUNSET KEY uses mahogany run and medium woodtone finishes to create the breezy elegant look reminiscent of West Indies styling. Drawers and doors are accented by antique weathered brass hardware with warm undertones to complete the tropical style appearance.

decorative options

SUNSET KEY offers the decorative option of reversible door panels on select items. Your choice of wood or cross cane panels allow you the versatility of modifying the design of these pieces to best suit your interior décor.

NEVIS HONEY BEIGE

DHIMASA 2

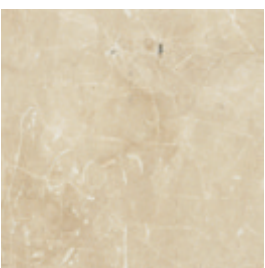

PALM CITY SAHARA

WOVEN CANE\*

KENAI SEA GRASS

Each piece of natural marble used in Sunset Key is unique. The characteristic swirls, vein lines and pattern variations are due to mineral impurities originally present in the limestone and also give marble its color. Consequently your marble will not be identical in color to the piece shown here. In addition, structural variations of the stone's crystallization cause what appear to be hairline cracks. Like the color variations, the structural variations are not a defect but an important part of any marble's unique character.

\*This woven material has a naturally coarse texture that is rough to the touch and may snag some woven garments. We invite you to sample this material prior to purchase at your local retailer.

(198 x 31 x 136 cm)

SEE PAGES 18, 19

**-100 INFRARED REMOTE READER**  
The infrared remote reader transfers your  
remote control signals to your audio/video  
components even if they are positioned  
behind wood panel doors, eliminating the  
need to insert glass panels. The infrared  
reader includes a receiver with mounting  
block, an infrared repeater control unit with  
power cord and three emitters. Each emitter,  
when properly positioned on the interior of  
the case, will transfer your remote control  
signal to the audio/video components  
positioned on one shelf. The system is  
easy to install and use. No programming is  
needed and the emitters may be repositioned  
as your audio/video components or  
configurations change.

**-30 CONSOLE**  
Three adjustable shelves, one electrical  
outlet, removable back panel, three  
drawers  
Accommodates TV sizes up to 60" flat
