

GENAMERICA

youngAmerica® 
MADE IN THE USA 

GENAMERICA BLENDS ELEMENTS OF Mission and Shaker styles allowing it to straddle the line between traditional and cosmopolitan with ease. With its strong geometric shapes, it'll evolve as your child's style develops, making it a favorite for any generation.

Crafted of warm cherry and select hardwood solids and cherry veneers, genAmerica is offered in two distinct finishes: classic cherry for a more transitional feel, or a more contemporary dark merlot finish.

Brushed nickel hardware adds to the contemporary feel, while multiple storage options provide space as your child grows and interests change. With its fresh take on timeless design, genAmerica has the staying power to see your child through decades of transition.

True to its name, genAmerica, like all Young America furniture, is made in the USA, delivering unequalled safety, quality and style. Plus, our product is GREENGUARD® Certified— which means they meet the most stringent chemical emissions standards in the world.

Let us introduce you to genAmerica.

MERLOT 91

IN THE DETAILS

BEAUTY IS IN THE DETAILS and that's especially true with this collection. Crafted from wood that's harvested exclusively from sustainable forests in North America, genAmerica is just one example of how we're able to reduce our carbon footprint on the environment by not importing lumber from a foreign source. Take a closer look at what makes genAmerica such a natural beauty.

Finish / Wood Characteristics

genAmerica is crafted from cherry and select hardwood solids, plus cherry veneers and offered in two finish options:

Dark Merlot—for a more contemporary look.

Classic Cherry—for a flexible transitional look.

Quality Cues

WOODEN MATTRESS PLATFORM

An attached wooden mattress platform further insures the safety of your little one. Because their security gives you sweet dreams.

It's one thing to claim quality and another to prove it.

Look for these telltale signs of quality in all Young America furniture:

- ✔ Wooden mattress platform for all cribs
- ✔ Dovetail drawers front and back
- ✔ Clear coated, finished drawers
- ✔ Corner blocked under drawer construction
- ✔ Automatic drawer stops
- ✔ Dust panel between each drawer
- ✔ Solid hardwood corner blocks are glued and fastened in place with screws to strengthen the cases and chairs
- ✔ Finished and screwed on back panels
- ✔ Adjustable levelers
- ✔ Tip restraints on all taller cases

DOVETAILING

Old-fashioned craftsmanship for strength and lasting fit

WOOD CORNER BLOCKS

Grooved, glued and fastened in place with screws for the most sturdy fits

SCREWED-IN BACK PANELS

Screws, not staples, provide added strength and stability

ADJUSTABLE LEVELERS

Adjustable inserts allow for easy set-up in older homes where floors may not be exactly level

Hardware

GenAmerica features brushed nickel hardware.

BRUSHED NICKEL KNOB

Committed to Safety

Young America is committed to making beautiful, high quality furniture. Our standard of safety is the highest you can buy for your child.

Look for the “Intertek Check” when buying a new crib.

Intertek

GREENGUARD Certification sets the most stringent indoor air quality standards in the world.

Made in the USA

Young America is committed to being the brand you can trust. As such, we assure you that the safety of our products is foremost in every decision we make. In some instances a small number of certain component parts such as assembly hardware or wood slats for mattress support may originate outside the U.S. and subsequently be assembled, finished and/or packaged by us in our domestic factories. In such cases, we incorporate these components only when we are 100% satisfied that they meet our stringent safety and quality standards. The Young America brand goes on nothing that we have not tested with our own rigorous manufacturing standards and processes.

Children grow. Needs change. Taste evolves. Style transforms. In fact, the one thing you can count on with children is change. That's why we build genAmerica—and all Young America furniture—with the ability to adapt to all the changes your child will face.

From the infant safe haven to the rough and tumble world of toddlers, from the multi-use play/chill space of tweens to the uber-private world of teens, your child's room reflects the stages of their lives. genAmerica offers a range of sleep storage and study options to see them through it all.

What's more, our commitment to quality construction means genAmerica is built to withstand more than just the day-to-day rigors of childhood; it's built to endure the year-to-year tests of today's youth. Plus its lean, contemporary lines stylishly accommodate decades of room makeovers.

WALL UNITS

Create storage central with our customizable wall units. Choose from a range of bookcases and storage hutches to create your base. Then pair it with whatever you need. Baby's room? Choose a dresser with a changing station. Tween haven? Tuck a cozy bed between bookcases. Study time? Fit a desk within arms reach of all their essentials. The best part is that no matter where you start, your storage can grow right along with your child.

Born here. Raised here. Without compromise.

**MADE IN THE
USA**

Young America is committed to being the brand you can trust. As such, we assure you that the safety of our products is foremost in every decision we make. In some instances a small number of certain component parts such as assembly hardware or wood slats for mattress support may originate outside the U.S. and subsequently be assembled, finished and/or packaged by us in our domestic factories. In such cases, we incorporate these components only when we are 100% satisfied that they meet our stringent safety and quality standards. The Young America brand goes on nothing that we have not tested with our own rigorous manufacturing standards and processes.

SAFETY

Young America not only meets, but also exceeds all mandatory safety regulations set by the Consumer Product Safety Commission (CPSC). The next level of product safety guidelines are voluntary. Groups such as the Juvenile Product Manufacturers Association

(JPMA) and the American Society of Testing and Materials (ASTM) create voluntary standards to guide the furniture industry, which we also exceed. But Young America doesn't stop there. In fact, our company is actively involved with the CPSC and ASTM in helping to fight for increased regulation and to make those standards even more strict.

Then there's the third level of safety assurance; and this is where Young America leads the industry. Intertek, the leading independent third party certification lab for safety and design, helps us go beyond testing, inspecting and certifying products. We reduce risk by incorporating manufacturing principles and processes that ensure consistency and reliability. We mitigate mistakes that can result in a quality or safety issue. Our work with Intertek has earned not only a reputation for value in our products, but an increased level of trust for the Young America brand. Our goal when it comes to safety is simple: We provide our customers with confidence. So look for the "Intertek Check" when you're buying a crib for your child. You'll certainly find it here.

QUALITY

We've been making furniture since 1924. Young America is a work of art with engineering evident down to its core. We start with high quality American hardwoods and veneers from sustainable forests, then we build on the tradition of craftsmanship we've practiced for nearly a century. Look closely and you'll recognize these hallmarks of quality:

- Wooden mattress platforms for all cribs
- Mortise and tenon joints
- Dovetailed drawers in front and back
- Screwed (not stapled) back panels
- Adjustable levelers
- Dust panels
- Wood corner blocks

Keeping an eye on quality is easy when everything's made right under your nose.

CHOICE AND COLOR

Indulge in free expression with Young America's vast array of colors, finishes and styles. In fact, we offer more pieces in more colors than we think you'll find anywhere. The choice is yours.

GREEN

Kids spend nearly 85% of their time indoors, where the air can be two-to-five times more polluted than outdoor air thanks to toxic chemical emissions from everyday products like furniture, electronics, appliances and cleaners. GREENGUARD® Certification means our product has been independently tested to meet the most stringent chemical emissions standards in the world. What's more, by reducing packaging materials and recovering and reusing solvent materials, we reduce the amount of waste created in our manufacturing process.

As a founding member of the Sustainable Furnishings Council, Young America leads the industry in addressing our environmental challenges. We are proud members of Appalachian Hardwood Manufacturers Incorporated, procuring the vast majority of our lumber from within 300 miles of our factories. This supports domestic mills, not to mention our country's efforts towards reforestation.

Testing in dynamic environmental chamber where air flow simulates actual use.

Last, but certainly not least, by making our products in the USA, we're not polluting the air using fossil fuels to ship our products across oceans just to get it to you.

For more information, visit youngAmerica.com.

Look for the icons below in the product specification pages to learn more about the different features offered by Young America.

DRAWER STOPS

Heavy-duty metal guides slide smoothly, prevent warping and offer patented automatic stops preventing dangerous spills.

HI-LO BEDRAIL LOCKING SYSTEM

Hi-lock position raises the bed to accommodate underbed storage or sleep options. Or, select the Lo-lock position and add our

PSR-0267 Pair Safety Rails to easily convert most twin and double beds to a transition bed.

ADJUSTABLE LEVELERS

Adjustable inserts allow for easy set-up in older homes where floors may not be exactly level.

SLAT-ROLL MATTRESS SUPPORT

Handy when underbed options are utilized, and bed rails are in Hi-lock position or a transition bed configuration. Each wood slat fastens with screws providing support without the need for a box spring or a bunkie board. Your mattress rests directly on the slat roll.

TIP RESTRAINTS

Taller cases feature our anti-tipping kit that can secure the backs of cases to the wall deterring dangerous tipping.

ELECTRONICS READY

Openings in convenient but discreet places that allow cords to pass through.

CAPTAIN'S STORAGE DRAWERS

Recognizing kid's rooms are often small, this storage option helps save valuable floor space.

UNDERBED SPACE SAVER

A useful and easy option when a quick need for additional sleep space is needed.

UNDERBED TRUNDLE UNIT

Provides additional sleep and storage room when space is at a premium.
