HORIZON

H O B B Y

Driving Innovation Forward

At Horizon Hobby, we continue to develop new and exciting ways to innovate and enhance the thrill of the RC driving experience. Since 1985, we have called upon our wealth of knowledge to perfect the excitement of radio control. Our passion for innovation has influenced some of the most progressive advancements in RC driving that you will find anywhere.

TECHNOLOGY KEY

Keep your eyes open for these logos so you can better identify which ground-breaking Horizon Hobby innovations are featured in each vehicle.

DSMRTM

DSMRTM protocol is exclusive SpektrumTM 2.4GHz radio control technology that can be used with any type of RC surface vehicle, including boats. DSMR transmitters provide on-channel interference protection that is simply second to none. The result is quicker reconnection times and superb response even in the noisiest of 2.4GHz environments.

R.O.S.S.

(Remote Onboard Starting System)

With the Remote Onboard Starting System (R.O.S.S.) system on board, fire up the engine with a push of a button. No more pull starting. Plus, it's just as easy to turn the engine off at the touch of the same button. It's push button convenience the competition only dreams about.

AVCTM

(Active Vehicle ControlTM)

Patent-pending SpektrumTM AVCTM technology uses a combination of sensors and software algorithms to adjust steering and throttle output at a rate faster than humanly possible, facilitating a more manageable driving experience. The level of stability provided by AVC technology can be adjusted to suit your preference and feels completely natural. With AVC, you'll feel like you're driving a finely tuned vehicle that handles with precision at any speed and through every turn.

ANOTHER INNOVATION FROM HORIZON HOBBY,
AVCTM TECHNOLOGY REACTS SO YOU DON'T HAVE TO.

HEADING HOLD

DRIVE FASTER WITH MORE CONTROL.

Heading hold ensures a vehicle maintains a straight line. Whether drag racing and needing to drive perfectly straight or hammering the throttle on an off-road adventure, AVC technology keeps drivers in control in even the most brutal terrain.

THROTTLE MANAGEMENT

Whether heading into a turn with too much speed or driving on a slippery surface where traction is minimized, throttle management adjusts the throttle to minimize wheel slip, allowing a driver to accelerate with total control in the most challenging of environments.

ADJUSTABLE SENSITIVITY

The amount of stability assistance provided can be adjusted to suit any combination of skill level, driving style and terrain. AVC can also be turned completely off for a traditional driving experience.

BLINKY MODE

A "Blinky Mode" has been incorporated into the AVC receiver that completely disables the AVC technology advantage. In this mode, the AVC receiver blinks to confirm the AVC system is inactive.

FASTER THAN HUMANLY POSSIBLE

AVC technology automatically accounts for surface conditions and alters a vehicle's optimal trajectory at a rate of 180 corrections per second.

Driving path with AVC

Driving path without AVC

PUT AVC[™] TECH IN VIRTUALLY ANY VEHICLE

It's simple! all you need is a Spektrum[™] SRS4210 AVC receiver and an AVC[™]-compatible Spektrum transmitter.

> Ford[®] Raptor[®] 1/10 4WD Pre Runner Truck VTR03009

- Officially licensed Ford Raptor pre-runner 4X4 body
- Dynamite[®] 3300Kv brushless power system
- Capable of speeds of 55+mph
- Requires Battery and Charger, sold separately

Compatible with most vehicles from your FAVORITE BRANDS!

ECX[®] • Vattera[®] • Losi[®] • TLR[®] • Traxxas[®] • HPI[®] • Kyosho[®] • Axial[®] • Team Associated Maverick • Thunder Tiger[®] • FTX • Tamiya • And more!

AVC[™] TECHNOLOGY

VATERRA

> Hälix[™] 1/10 4WD Monster Truck VTR03003

- Dynamite[®] 3300Kv brushless power system
- Capable of Speeds In Excess Of 55 MPH
- Waterproof Electronics
- Requires Battery and Charger, sold separately

> Losi[®] TEN-Rally X 1/10 4WD LOS03000

- Durable, aluminum, Race-proven TEN Platform
- Dynamite[®] Waterproof, 130A LiPo Compatible ESC
- 50+ MPH out of the box
- Requires Battery and Charger, sold separately

Equip your favorite vehicle with an AVC system!

Get one of the transmitter/receiver packages below or use an existing Spektrum AVC-compatible transmitter* with a standalone SRS4210 AVC receiver.

Check out SPM.com/avc for more information.

DX4C
SPM4210
(includes SRS4210 AVC Receiver)

DX4S
SPM4010
(includes SRS4210 AVC Receiver)

The Vattera[®] Ford[®] Raptor[®], Hälix and Losi[®] Rally-X come with AVC[™] pre-installed.
*AVC-compatible Spektrum transmitters include the DX4C, DX4S, DX4R PRO, or DX2E

Ready-To-Run RTR Vehicles include
Transmitter • Battery • Charger

> **Ruckus® 1/18 4WD Monster Truck**
RTR ECX01000 • RTR ECX01001

- Dynamite® 380 size brushed motor
- 4WD shaft driven platform
- ECX® 2.4Ghz radio system
- Waterproof receiver / ESC combo
- Includes 7.2V NiMH battery and charger

SMALL SIZE BIG FUN

Mini and Micro vehicles provide big thrills on a small scale. These go anywhere trucks, rally cars and buggies can be used outdoors, or in large indoor spaces, and despite being small in size, they have the muscle to drive like much bigger vehicles. Plus, they are all ready to run with everything included in the box.

Check out
ECXrc.com and
Losi.com for more.

MINIS/MICROS

- > **1/14 Mini 8IGHT™ Buggy**
RTR LOSB0224 (T1/Black, T2/Red)
- Heavy-duty, 2.5mm anodized aluminum chassis
 - 4WD shaft-driven drivetrain
 - Li-Po-compatible brushless ESC

> **1/24 4WD Short Course Truck**
RTR LOSB0240

(T1/White, Red, Black, T2/White, Gray, Black, T3/Green, Black, Red, T4/Black, Gray)

- Innovative micro 4X4 chassis
- High-capacity 4.8V 220mAh battery pack and charger
- 2-in-1 ESC/receiver combo unit

*Also available Brushless (LOS0242, T1/T2)

> **1/36 Micro-T Stadium Truck**
RTR LOS0230 (T1/Red, T2/Blue, T3/Green)

- Fully-independent suspension with friction dampers
- Differential-equipped transmission with adjustable slipper clutch
- Powerful, preinstalled micro motor

> **1/36 Micro Desert Truck**
RTR LOS0233 (T1/Red, T2/Blue, T3/Green)

- Complete Ready-To-Run, everything included
- Extended chassis for increased stability and scale looks
- Fully-independent suspension with friction dampers

> **1/24 Micro Brushless Rally**
RTR LOSB0243 (T1/Blue, T2/Silver)

- 4.8V 220mAh battery pack and charger
- 2-in-1 brushless ESC/2.4GHz DSM® receiver combo unit
- Powerful 8750Kv brushless micro motor

*Also available Brushed (LOS0241, T1-T4)

> **Twin Hammers® 1.9 Rock Racer 1/10**
RTR VTR03000

- Shift-on-the-fly, user-selectable, two-speed transmission
- Spektrum™ DX3E 2.4GHz 3-channel radio system included
- Dynamite® 15-turn brushed motor & Lipo compatible ESC
- Full-time 4WD
- Waterproof electronics

ROCK AND ROLL REBELS

Check out
Losi.com and
VaterraRC.com for
more trucks.

ROCK CRAWLERS

> **Slickrock™ 4WD Rock Crawler 1/18**
RTR VTR01003

- Multi-link suspension with long-travel shocks
- Dynamite® Tazer 380 motor and waterproof electronics
- Full-time 4WD

Tackle backyard landscapes with these specially designed rock crawlers and rock racers. Based on real-world counterparts, these rough and ready vehicles can help you blaze a new trail to satisfy your inner rock star. Most are ready to run with nothing more to buy..

> **1/10 Night Crawler**
LOSBO104

- The front and rear solid axle features a worm gear drive that acts as a brake when no power is supplied
- The included ESC, with crawler-specific programming, accepts Ni-MH and Li-Po batteries
- All-metal CV front axle and center driveshafts provide superior durability to the driveline to handle the stresses of rock crawling
- *Requires Battery and Charger sold separately*

> **1/24 Micro 4X4 Trail Trekker**
RTR LOSBO238 (T1/Black, T2/Silver)

- Front and rear solid axles with worm gear drive
- Powerful micro motor with plenty of scale power
- Losi® radio system with Spektrum™ 2.4GHz DSM® technology

EXCITEMENT AT EVERY TURN

Turn up the adventure with Vatterra on-road vehicles. Right down to the tiniest detail, these cars look and drive just like full-scale vehicles they were designed after. Speed, style and swagger—they have it all. They're ready to hit the street and rule the road. Get out there and kick some asphalt.

> 1967 Ford Mustang V100-S 1/10 RTR VTR03017

- Officially Licensed 1967 Ford Mustang body
- All inclusive RTR package with NiMH battery and wall charger
- Dynamite® 15-turn brushed motor & Li-Po compatible ESC
- Waterproof Electronics

Check out
VatterraRC.com
for more details.

1/10 ON-ROAD

> Nissan Silvia S15 1/10 RTR VTR03008

- Officially licensed Nissan Silvia (S15) body
- Versatile, neutral handling V100-C chassis
- Dynamite® 15-turn Brushed Motor & Li-Po compatible ESC

> 1969 Camaro SS Brushless 1/10 4WD RTR VTR03016

- Officially Licensed 1969 Camaro SS body
- Dynamite® 3300Kv Brushless Power System incl. Li-Po compatible ESC
- Metal Shaft-Driven 4WD

**Also available the 1969 Chevrolet Camaro RS 1/10 (VTR03006)*

> 2012 Nissan GT-R GT3 1/10 RTR VTR03005

- Officially licensed NISSAN GT-R Nismo GT3 body
- Shaft-driven 4WD
- Dynamite® 15-turn Brushed Motor & Li-Po compatible ESC
- Spektrum™ 2.4GHz technology

> 2012 CHP Chevrolet Camaro ZL-1 1/10 RTR VTR03012

- Officially licensed California Highway Patrol Trim Scheme with push bar and LED flashing light bar
- Dynamite® 15-turn brushed motor & Li-Po compatible ESC
- Waterproof servo, ESC and receiver

> 2012 Nissan GT-R 1/10 RTR VTR03004

- Officially licensed 2012 Nissan GT-R body
- Wider rear tires for better grip
- Dynamite® 15-turn Brushed Motor & Li-Po compatible ESC

> 2012 Chevrolet Camaro ZL1 1/10 RTR VTR03007

- Officially Licensed 2012 Camaro ZL1 body
- Low CG, Double Wishbone Suspension
- Shaft-Driven 4WD For Excellent Traction
- Dynamite® 15-turn brushed motor & Li-Po compatible ESC

Ready-To-Run RTR Vehicles include
Transmitter • Battery • Charger

› **Ruckus 1/10 2WD Brushless Monster Truck: Black/White**

RTR ECX03009

- Preinstalled Dynamite® Tazer™ 45A sensorless waterproof electronic speed control with 3S Li-Po capability
- Spektrum™ DX2E 2.4 GHz transmitter and waterproof SR201 receiver
- Preinstalled Dynamite Tazer 3300Kv 4-pole brushless motor

RUNNING AHEAD OF THE PACK

Hit the dirt with these 1/10-scale adrenaline-pumping machines. These come completely ready to run right out of the box with nothing more to buy. Just charge up the battery and get ready to travel where roads simply don't exist.

1/10 OFF-ROAD

ECX03001

ECX03004

ECX03002

ECX03006

› **Boost™ 1/10 2WD Buggy**
RTR ECX03004

› **Circuit™ 1/10 2WD Stadium Truck**
RTR ECX03001

› **Ruckus® 1/10 2WD Monster Truck**
RTR ECX03002

› **Torment™ 1/10 2WD SCT**
RTR ECX03006

- Preinstalled Dynamite® waterproof Tazer 15T ESC
- Spektrum™ DX2E 2.4 GHz transmitter and waterproof SR201 receiver
- Preinstalled Dynamite® 20T brushed motor

› **1/10 XXX-SCT Brushless with Li-Po**
RTR LOSB0115

- Durable, ROAR-legal, composite XXX-SCT chassis
- Race-inspired hard anodized threaded-body shocks with aluminum adjustment collars for easy suspension tuning
- Dynamite® 4-pole, 3300Kv SC motor
- Waterproof, Dynamite® 45A brushless ESC

POWER YOUR NEXT ADVENTURE

Check out
DynamiteRC.com
for more accessories.

Whatever the job, Dynamite chargers keep you up and running. The Dynamite Prophet™ series of chargers combines affordability with ease of use and make charging your Ni-MH- or Li-Po batteries a breeze. No matter where your passion takes you, count on Dynamite chargers to fulfill all of your charging needs.

› **Prophet Sport Plus 50W Battery Charger**
DYNC2010

- 50W charge power output for Ni-MH (1–8C) or Li-Po (1–6S)
- High-visibility, simplified user interface
- Select charge current from 0.1A to 5.0A with a single push button

DYNAMITE

DYN2005

› **Prophet Sport Ni-MH 35W Battery Charger**
DYNC2000

› **Prophet Sport Quattro 100W x 4 AC/DC Battery Charger**
DYN4110

- Four 100W charge ports (400W total output power)
- Space-saving design takes up a small footprint without sacrificing power output
- Li-Po, Li-Fe and Ni-MH charging capability, independently selectable for each channel

› **Prophet Sport Li-Po 35W Battery Charger**
DYNC2005

- 35W charge power output for Li-Po (2–3S) batteries
- High-visibility, simplified user interface
- Select charge current from 0.5A to 3.0A with a single push button

MORE THAN JUST CHARGERS

Dynamite is all about accessories that assist you with getting the most out of your RC vehicle. For the full line of Dynamite batteries, tools, chargers and more visit DynamiteRC.com

DYN09001EC

Check out
Losi.com and
VaterraRC.com for
more details.

> **LST XXL 2 1/8 4WD Gas Monster Truck**
LOS04002

- Ground-breaking .31 cubic inch gasoline engine
- Spektrum™ waterproof servos and receiver
- Red anodized chassis add visual excitement
- Requires Gasoline, Spin-start battery and charger, receiver battery charger, sold separately

1/8 OFF-ROAD

DRIVE OUTSIDE THE LINES

Forget boundaries. Life is meant to be lived outside the lines. Vaterra® off-road vehicles will take you to the most extreme places on earth and look and perform just like the real thing. Wherever you want to go, our cars and buggies will take you there. But what happens next, well, that's up to you.

> **Glamis Fear™ 1/8 Four Seat Buggy**
RTR VTR04001

- Viscous Torque Vectoring (VTV™) differential
- Dynamite® 3300Kv brushless power system equals more power and speed and that means more action
- Waterproof electronics

> **Glamis Uno™ 1/8 Single Seat Buggy**
RTR VTR04000

- Viscous Torque Vectoring (VTV™) differential
- Four wheel independent suspension
- Dynamite® 3300Kv brushless power system
- Spektrum™ 2.4GHz technology

> 1/5 5IVE-T® 4WD Off-Road Bind-N-Drive™ Truck

LOS0019BLKBD—Black
LOS0019WHTBD—White

- Large-bore shocks with 7mm shafts and threaded adjusters
- 5mm chassis with CNC machining for strength and less weight
- Powerful Losi 2-stroke 26cc gasoline engine

*Also available as 5IVE-T Roller (LOS0024). Includes all components with exception of electronics and engine.

LARGER THAN LIFE

LARGE SCALE

1/5-scale vehicles are the closest thing to a full-size vehicle in realism, performance and experience. Achieve maximum thrills with these large-scale RC vehicles. There's really nothing like driving an RC truck or rally car as big as this. It's huge!

Check out Losi.com for more details.

SUREFIRE™ EPI

E.F.I. (Electronic Fuel Injection)

Horizon Hobby's new Surefire® Electronic Fuel Injection system makes gas powered RC vehicles work with maximum efficiency, maximum power for maximum convenience. EFI Surefire automatically adjusts the air fuel mixture to ensure you get the best possible flow of fuel each and every time to fire up your engine.

> 5IVE MINI WRC 1/5 4WD Rally LOS05000

- Officially licensed John Cooper Works WRC MINI Countryman Rally body and trim scheme, based on 5IVE-T platform
- Remote Operated Start and Stop System (R.O.S.S.), which allows you to start and stop the engine with the push of a button
- Dynamite 29CC Electronic Fuel Injection gas engine
- Requires Gasoline and LiPo Receiver Battery Charger, sold separately

> Desert Buggy XL 1/5 4WD Buggy LOS05001

- Speeds of 40+ MPH
- Dynamite 23cc gasoline engine and 740cc gas tank
- Machined ring and pinion gear
- Requires Gasoline and NiMH Receiver Battery Charger, sold separately

HORIZON HOBBY TECHNOLOGY

ENGINEERING WINS.

Continued innovation and superior design have made the Team Losi Racing™ brand an unstoppable force in the world of RC racing. Our racing platforms are engineered to meet the demands of competitive racers all over the globe and have led to several World and National Championship titles. With four 2013 ROAR National Champions, Team Losi Racing kits are the choice of RC champions.

> **8IGHT 3.0 Race Kit:** **1/8 4WD Nitro Buggy** TLR04000

- Improved suspension geometry
- Large-bore 16mm shocks with tapered springs
- Center dog bone drive system

> **8IGHT-E™ 3.0 Race Kit:** **1/8 4WD Electric Buggy** TLR04002

Check out TLRacing.com for more vehicles.

TEAM LOSI RACING

> **8IGHT-T 3.0 Race Kit:** **1/8 4WD Nitro Truggy** TLR04001

- Improved suspension geometry
- 16mm shocks and tapered springs
- Optional parts included

> **TEN-SCTE 2.0 Kit:** **1/10 4WD SCT** TLR03000

- Kit allows you to build to your specifications
- Includes numerous option parts
- Weight bias is further back and lower than the original, making for more consistent handling and faster lap times

> **22-4™ Race Kit:** **1/10 4WD Buggy** TLR03005

- 2.5mm hard-anodized aluminum 7075 aluminum chassis
- Sealed 3-belt drivetrain with modular covers
- Centralized forward motor mount

> **22™ 2.0 Race Kit:** **1/10 2WD Buggy** TLR03002

- Mid and rear motor configuration options
- Spindle and caster block with revised geometry
- Treaded king pins and outer hinge pins

Team Losi Racing Kits require all electronic and power systems.

WAKE YOUR WORLD™

› Rockstar 48-inch Gas Powered Catamaran PRB09000

- Officially Licensed Rockstar Energy trim scheme
- Remote Operated Start and Stop System (R.O.S.S.), which allows you to start and stop the engine with the push of a button
- Water-cooled and powerful CY 26cc gas engine
- Requires Gasoline and LiPo Receiver Battery Charger, sold separately

Sailboats. Deep-Vs. And high-performance catamarans. As a leader in RC boating, Pro Boat® makes a small-scale version of just about everything that runs on the water. With a commitment to quality that goes far below the surface. Most are ready to run with nothing more to buy.

Check out
Proboatmodels.com
for more boats.

PRO BOAT®

› Volere™ 22 Scale Boat RTR PRB3050B

- No assembly required
- Real wood trim layered on a blow-molded ABS plastic hull
- Pro Boat® 2.4GHz radio system included

› Miss GEICO 17 2.4 Catamaran RTR PRB0300

- Officially licensed Miss GEICO trim scheme
- Full RTR with battery and charger
- Includes Dynamite® 2.0A peak charger and 6-cell 7.2V Ni-MH Speedpack™ battery with EC3™ connector

› Impulse™ 9 Deep-V RTR PRB08000

PRB08000

PRB08001

› Blackjack™ 9 Catamaran RTR PRB08001

- Powerful performance with a potent 180-size brushed motor
- 9 inch hull length for optimal flexibility of use
- Injection molded plastic hull offers crisp lines

› Ragazza™ 1 Meter Sailboat RTR PRB07000

- Stainless steel rigging does not stretch while underway
- Easy to remove aluminum mast for simple transportation
- Hand-laid fiberglass hull with bow foam protector
- Everything included

› Blackjack™ 29 BL PRB4150

- Capable of reaching speeds of 50+mph
- Includes Dynamite marine electronics that have been overhauled to withstand the rigors of high-speed action
- Includes Spektrum™ 2.4Ghz DX2E marine radio system including the MR200 marine receiver
- Requires Two Batteries and Charger, sold separately

› Impulse™ 31 Deep-V BL PRB4250B

- Capable of reaching speeds of 50+mph
- Offset rudder system provides superb stability in all wake conditions
- Water-cooled Dynamite marine 80-amp ESC (6S compatible) and 1800Kv brushless motor
- Requires Two Batteries and Charger, sold separately

GET CONNECTED

It was Spektrum™ 2.4GHz technology that ignited the RC revolution. Today, Spektrum technology continues to define the future of the hobby. Spektrum radio systems and servos offer a faster response time and consistently ensures your input happens exactly when you expect it to. No matter what happens, you stay in control and hit your mark every time.

› DX4R PRO 4CH DSMR Racing System

SPM4100

- Adjustable trigger shape and tension
- Large Backlit LCD Screen
- 50-Model memory with ModelMatch™ technology

› DX4C DSMR 4CH Radio System with SRS4210 AVC Receiver

SRS4210

- 4-channels for independent adjustment of steering and throttle AVC operation
- Integrated antenna
- Includes SRS4210 AVC receiver

› DX4S 4-Ch DSMR™ Radio System with SRS4210 AVC™ Receiver

SPM4010

- Includes SR420 4-channel DSMR receiver and SRS4210 AVC receiver
- Backlit LCD screen
- 30-model memory

SPEKTRUM™

Check out SpectrumRC.com for more than just transmitters.

RECEIVERS

› SRS4210 DSMR AVC Surface Receiver

SPMSRS4210

- AVC technology is now available for virtually any hobby grade radio control surface vehicle excluding marine applications
- Full adjustability offers the user the ability to tune the system based on their driving preferences
- The system is extremely easy to stall and simply replaces the users existing receiver

› SR2000 DSMR Micro Race Receiver

SPMSR2000

- Reliakote™ water-resistant coating provides electronics with protection from water, fuel and motor spray
- Compact, fuelproof case and lightweight design allow for installation in nearly any car or truck
- Micro size

› SR410 4-Channel DSMR Sport Receiver

SPMSR410

- Reliakote water-resistant coating seals the internal electronics from the elements
- Outputs for steering, throttle and 2 AUX channels, plus an extra port for battery/bind
- Equipped with the DSMR frequency-agile surface protocol

SERVOS

› S6020 Digital Surface Servo - Torque

SPMSS6020

- 146 oz-in torque at 6V affords impressive performance in the toughest applications
- Dual ball bearings provide less resistance for higher performance and longer life

› S6030 Digital Surface Servo - High Torque

SPMSS6030

- Delivers torque with silky smooth precision

› S6040 Digital Surface Servo - High Speed

SPMSS6040

- Ultra fast 0.08 second transit time with 166 oz-in of torque at 6.0V

› S6070 Digital Surface Servo - Low Profile

SPMSS6070

- Quick transit time
- 125 oz-in of torque

› S6090 High Voltage Surface Servo - Speed

SPMSS6090

› S6100 High Voltage Surface Servo - Torque

SPMSS6100

- High voltage rating
