MEASURING

For best results, measure over your undergarments.

CHEST: Measure just under arms and across shoulder blades holding the tape firm and level. If your chest falls between sizes, order the next size up.

NATURAL WAIST: Bend side to side and find the natural bend in your body; this is your natural waist. Note: It may not be the smallest point.

HIP/SEAT: Measure the fullest point between your natural waist and crotch.

INSEAM: Measure from your crotch down to the desired length on body. You may also measure pants that you currently own and like. Lay the garment flat and smooth out. Measure on the front from the crotch point along the seam to the hem for the inseam length.

IF YOU WORE CARHARTT MEN'S GEAR TO WORK, FIND THE WOMEN'S SIZE THAT WORKS BETTER FOR YOU

For Bottoms: To determine ideal fit, this conversion chart uses a women's hip measurement instead of a traditional waist measurement, since the garment has to fit over the largest part of the body. In most cases the waist will gape if a woman were to purchase a men's pant as she has a greater waist-to-hip difference.

Men's Pant Size Equivalent	40	42	44	46	48	50
Women's Numeric Pant Size	16W	18W	20W	22W	24W	26W

For Tops: Men's tops on a woman's body tend to fit looser around the shoulders and more snug through the hips. Women's tops and jackets are made with more shaping, providing optimum fit through the hip and waist area.

Men's Top Size Equivalent	2XL	3XL	4XL
Women's Top Size	2XL	3XL	4XL
