Wedding Registry Calculator

How many items should we register for?

We suggest registering for 2 gifts per guest—remember to include guests at engagement parties and showers too. Our handy calculator will help you determine how many gifts you'll want to register for.

Our Registry:

Number of Guests

Are you having an engagement party? (Y/N) _____

How many showers do you plan to have? _____

How many guests at each shower?

Shower #1: _____

Shower #2: _____

How many guests are you inviting to your wedding? _____

Total Number of Guests _____

2 gifts x _____ guests = Total Number of Gifts* _____

*Gifts can be individual products or sets of products. For example, 12 glasses = 12 gifts; 1 cookware set = 1 gift.

Let's get started.
