Care and maintenance

The same method of cleaning is valid for all Hardy freshwater reels.

- 1 Remove line and backing.
- 2 Remove the spool.
- 3 Flush away dirt by placing the spool and frame under a stream of warm water.
- 4 Dry carefully with a lint free cloth.
- 5 Lubricate with Hardy reel oil at points illustrated on diagrams.
- 6 Always ensure that the spindle head is adequately greased.
- 7 Always turn drag to the minimum setting to avoid compression of drag washer or springs.
- 8 Always ensure the reel and line are dry before storing in case or pouch.

Changing your reel from left to right hand wind

- 1 When changing a reel which possesses a lineguard, the lineguard must be removed (fig 1a) and refitted in the opposite position (fig 1b) before replacing the spool.

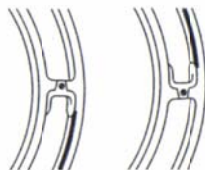

fig 1a

fig 1b

- 1a When you receive your reel it will be set for left hand wind.
- 2 Remove spool by the latch bar located in the centre of the spool.
- 3 Turn both tongues (fig 2a) clockwise into position (fig 2b).
- 4 Replace spool.

Compensating check mechanism

The check mechanism can be adjusted by simply turning the regulator screw on the side of the frame clockwise to increase the drag; anti-clockwise to decrease the drag.

Lubrication on the Hardy Lightweight range

Lifetime original user warranty

All House of Hardy rods and reels carry an original user lifetime warranty against any defect in workmanship or materials. Should there be any defect, House of Hardy will, at its option, repair or replace the item. This warranty does not cover damage caused by misuse, lack of maintenance, negligence or normal wear and tear. Warranty claims with the proof of original purchase should be sent to: Customer services, House of Hardy Ltd, Alnwick, Northumberland, NE66 2PF, England.
